

Position: Pediatric Physical Therapist

Vision: A community that works collaboratively to ensure that all children and families have access to early education, behavioral and mental health services to improve their well-being.

Mission: Old Mill Center for Children and Families is a community-based, family-oriented center empowering children and families of diverse backgrounds to optimize their potential through specially designed education and therapy programs.

Position Summary: The Pediatric Physical Therapist will work with a wide range of clients from birth to age 18 with a variety of diagnoses. These diagnoses can range from autism, developmental delays, Down syndrome, orthopedic and neurologic diagnosis, etc. The Pediatric Physical Therapist will need to be able to assess clients, develop treatment plans, and have excellent communication skills to be able to train parents/caregivers as well as communicate with other members of the team and the client's primary care provider (ability to work with students).

Qualifications and Experience: Graduate from an accredited Physical Therapy school approved by the American Physical Therapy Association. Valid Oregon PT License required. Applicant must have at least 1 year of professional PT experience working with children and have excellent knowledge of physiology best practice and standards. Current CPR and Basic First Aid Certification is required or able to obtain.

Responsible to Whom: Reports directly to the Executive Director.
