

Old Mill Center for Children and Families

offers a continuum of services from prevention to intervention for children and their families to maximize their potential. We focus on family centered early education, therapeutic intervention, counseling, and parent support.

Since 1977, Old Mill Center has been serving youth of all ages - typically developing children, those with disabilities and developmental delays, as well as children with social, emotional or behavioral problems. We recognize and celebrate each child's unique gifts and strengths. We offer a welcoming place for children and their families to grow and change in a nurturing and supportive environment.

Community Preschool

The Community Preschool is just one of our programs aimed at building a healthy and nurturing foundation for your child. We offer these programs as well:

Healthy Families
Relief Nursery
Intensive Treatment Services
Child and Family Counseling

For more information on Old Mill Center and our programs visit our website or give us a call.

Enrollment Information

Our preschool program provides a quality learning environment for children of all abilities. Because they work and play side by side, they develop an understanding of diversity, as well as learning patience, interpersonal communication, and above all, kindness. By learning to accept and communicate with those who are different from themselves, children in our program are prepared to be better community members later in life.

Oregon's Early Learning Division Spark program recognizes Old Mill Center as a 5-Star Quality-Rated Program. Spark helps raise the quality and consistency of child care and early learning programs across the state and ensures that children in those programs are ready for kindergarten. Our preschool excels in essential standards that support quality learning for all children.

Summer Program

We offer a summer camp in July and August. Kids can enjoy our beautiful park setting while they continue to practice the skills necessary for kindergarten. Ask about it today!
